Before we get into the main portion of our article on Cheating God, I wanted to highlight aspects of the Spartacus Letter I referred to last time. The letter is 48-pages and contains over 500 documented sources. It is completely anonymous and it isn't difficult to understand why since so many physicians, pharmacists, scientists and medical researchers are all being banned from one platform or another for their outspoken views that go against the accepted narrative, which supports the accepted agenda.

[Spartacus Letter](#) breaks down into several sections:

1. Overall Summary of points
2. COVID-19 Pathophysiology and Treatments
3. COVID-19 Transmission
4. COVID-19 Vaccine Dangers
5. COVID-19 Criminal Conspiracy
6. COVID-19 Vaccine Development and Links to Transhumanism
7. Conclusions

I can only urge readers to download the document to their computers, print it out and read it thoroughly. I've read it once and am on my second read-through. The scientific information provided is harrowing in its detail. I seriously doubt if any "fact-checkers" will come to the fore in an attempt to refute what Spartacus states. However, if attempts are made, I envision things to

be taken out of context and/or attempts to defame and slander. I cannot imagine any scientist honestly being able to negate the information set forth by Spartacus, obviously someone who is clearly well-versed on medicine and science.

If Spartacus is correct, it appears that the globalists will not be inclined to let up even if forced. It's possible that they will be defeated but I am of the opinion that God has allowed them to get this far with their advantage over global population and has done so for a reason. It is very likely they will be allowed to continue IF this is the timing that God has determined. They are overwhelming society with their mandates, their demands and fears.

If you choose to read through the Spartacus Letter (and I certainly hope you do so), you'll immediately come face to face with many, many scientific facts and terminology. Even if you do not fully understand what Spartacus is talking about, it will make sense in general. However, I'd encourage everyone to read it again and begin looking up specific definitions pertaining to the information presented. I promise it will make even greater sense if you do so.

The upshot is that CV is a very survivable illness (99.8%+ survivability rate). Spartacus breaks down the lies we've been told and explains just exactly what COVID-19 is in very clear, though scientific terms and how the illness actually transmits from one person to another. He then talks of early treatments that actually work but were prohibited. This includes a discussion of Ivermectin, which has actually been approved by the FDA for decades. It is not a "horse dewormer," though it is an anti-parasitic. However, it also has anti-viral properties as does Hydroxychloroquine. But these are best used as *early* interventions and treatments for CV cases. He also explains why the "studies" using Ivermectin were pointless since by the time they were used on people, the virus had already left their systems, leaving damaged organs in its wake. Ivermectin could've prevented that had it been used early on. The entirety of these sections make for extremely fascinating reading.

Spartacus also presents the facts regarding the CV vax. He states without equivocation that the vax does not sterilize "*and do not prevent infection or transmission.*" He further states that these are "*'leaky' vaccines,*" which "*means they remove the evolutionary pressure on the virus to become less lethal. It also means that the vaccinated are perfect carriers. In other words, those who are vaccinated are a threat to the unvaccinated, not the other way around.*" Yet, all we hear from the MSM is that it's the unvaxxed who are responsible for the new variants and cases. In essence, those in power are trying to build cases against the unvaxxed as the "problem" and if we could just get everyone to get vaxxed, CV would go away. Not only is this not true, but it is completely deceptive because it masks the real problem. As I noted last time, many who are dying are labeled "unvaxxed," but that is due to the fact that they are dying after their first or even second jab but have not passed the 14th day after their second jab so the CDC is stating that people are not fully vaxxed until that time.

Spartacus explains why natural immunity from those who've had a past CV infection is far more robust than a vaccine-induced immunity. He also notes the problems that can occur due to the vax and future variants of the CV strain. "*If someone is vaccinated with the mRNA based on the Spike from the initial Wuhan strain of SARS-CoV-2, and then they become infected with a future,*

mutated strain of the virus, they may become severely ill. In other words, it's possible for vaccines to sensitize someone to disease. There is a precedent for this in recent history. Sanofi's Dengvaxia vaccine for Dengue failed because it caused the immune sensitization in people whose immune systems were Dengue-naive."

Spartacus also discusses what he believes is a criminal conspiracy and illustrates exactly how Dr. Anthony Fauci lied to Congress, which is a felony. Of course, with Merrick Garland as AG, indicting Fauci simply won't happen. Spartacus lists clearly the trail of co-conspirators in this whole thing and again, has many documented sources for his accusations. He also states that CV is not really a virus. It is a lab-created forgery.

All I can say is that what Spartacus reveals is downright frightening, yet as Christians, we know we do not need to be frightened. However, let's be honest here that something like this with the tightening of the proverbial thumbscrews *is* terrifying, so though knowledge is power (and it is good to know), it can overwhelm us if we fail to put things into perspective. In essence, we cannot be like the Israelites in **Malachi 3** who were guilty of cheating God.

I have to wonder how many Christians today are guilty of the same type of offenses that the Israelites were guilty of. The difference is we don't really have a true prophet of God who can warn us. However, if pastors are doing their jobs by preaching all of the Bible, then this topic will come up and people will be moved by it, either by rejecting it and hardening their hearts or allowing His Word to soften through loving conviction. Where do you stand?

Malachi 3 can be broken down into these headings:

1. The Coming Messenger
2. Breaking Covenant by Withholding Tithes
3. Israel Speaks Arrogantly Against God
4. The Faithful Remnant

Behold, I send My messenger, And he will prepare the way before Me. And the Lord, whom you seek, Will suddenly come to His temple, Even the Messenger of the covenant, In whom you delight. Behold, He is coming," Says the Lord of hosts. (Malachi 3:1 NKJV)

The chapter opens with God promising to send two messengers to the people. The first is likely John the Baptist, followed by God the Son. This prophecy concerning the first messenger is quoted in all four of the Gospels clearly signifying John the Baptist. It is likely though the second messenger refers to Jesus, many conservative scholars believe it points to His Second Coming as Judge over the earth, not His First Coming in which He was the Suffering Servant and to offer salvation to the lost.

When Jesus returns, it will be *sudden* and completely unexpected, taking the entire earth by surprise. **Malachi 3:2** explains more than no one will be able to endure His coming.

*But who can endure the day of His coming?
And who can stand when He appears?*

*For He is like a refiner's fire
And like launderers' soap.*

When Jesus returns to this earth, He will judge and purify. Verses **4** through **7** explain in detail how He will judge and what He will do to cleanse and purify. For those who do not know Him when He returns, it will be a traumatically terrifying experience for them. It is difficult to not wish that it would happen now, but God's purposes will unfold as He wills, not as we will.

In **Malachi 3:8-9**, God speaks through the prophet Malachi explaining exactly what the Israelites have done to warrant His judgment.

*Will a man rob God?
Yet you have robbed Me!
But you say,
'In what way have we robbed You?'
In tithes and offerings.
You are cursed with a curse,
For you have robbed Me,
Even this whole nation.*

We would do well to ask ourselves whether or not we have robbed God. Have we promised Him certain things and not followed through on those promises? Have we said we would give Him a certain amount of our "tithe," but then failed to do so? If we promised God and we reneged, then we are guilty of robbing God. I don't believe Christians have to tithe in the same way the Israelites did. We are to give as we are able to do so. Certainly, the more sacrificially we give, the greater the blessing, but we do not have to tithe as the Israelites did (**2 Corinthians 9:7**). Paul's point is that we should determine what we can give and be sure we give it if this is what we've promised to God.

The Israelites robbed God because they kept some of the tithe back. This was not always money. It was in grain offerings and other offerings. Sometimes, even though Israelites were to offer to God the "perfect" lamb or other animal, often, they saved the best animal for themselves and offered God blind or lame animals (**Malachi 1:6ff**). God was not blind to this and kept a record of it even though He did not judge immediately. This was allowed because the priests were corrupt, taking bribes or deliberately allowing less-than-perfect animals to be offered because they gained something from that.

Do we do that? Do we save the best for ourselves and give God the leftovers? Is our worship pure and undefiled? Do we seek Him with a spirit of truth?

After God tells the Israelites through Malachi His concerns, it is notable that at least *some* of the people came to their senses. This is important.

*Then those who **feared the Lord** spoke to one another,
And the Lord listened and heard them;*

*So a book of remembrance was written before Him
For those who fear the Lord
And who meditate on His name. (emphasis added)*

Note that there were Israelites who heard God's complaints and knew He was right. Because of their fear (of offending) the Lord, they humbled themselves and turned their backs on corrupt practices. They *heard* what God said, meaning they agreed with Him and took it to heart. In essence, they repented of their previous attitudes and chose to have a renewed attitude. To help them remember, they wrote a book of remembrance and they took the time to meditate on His Words.

I am trying to commit **Psalm 37:1-5** to memory. But I want to do more than simply memorize it. I want to breathe it and live by it. I want to please the Lord by being obedient to these verses. I know I will need His help to do so because I tend to be a worrier. But I also believe He will help me get there.

*Do not fret because of evildoers,
Nor be envious of the workers of iniquity.
For they shall soon be cut down like the grass,
And wither as the green herb.
Trust in the Lord, and do good;
Dwell in the land, and feed on His faithfulness.
Delight yourself also in the Lord,
And He shall give you the desires of your heart.
Commit your way to the Lord,
Trust also in Him,
And He shall bring it to pass.*

In this day and age, things are becoming increasingly weird. Globalists seek to constrict those of us who want no part of the poison they want to inject into all of us. Once a person gets on that merry-go-round, they will be expected to take every booster shot that is produced. Knowing what's in those is enough to cause me to reject them out of hand. I become angered over the globalists who are trying to control all of society, yet I have to understand that if God is allowing this to usher in the coming Tribulation and Antichrist, there is nothing that will alter it. However, in spite of this, I do believe God will protect those who love and trust Him and that is accomplished only through practice; the art of learning to trust Him increasingly and implicitly through life's situations.

Where are you in your walk with the Lord? We need to search ourselves to see if we are cheating Him or if we are failing to trust Him enough. It is a process that does not happen overnight, but I do believe it will happen as we persevere in seeking Him and His will for our lives.
