

## **KHCB – Q & A – February 18, 2021**

**The transcript contains the Questions received – parenthesis indicate where in the broadcast the question is asked :**

### Questions

1 – (06:55) – What are the requirements for Salvation? Do you have to believe in the virgin birth and other things in the Bible?

2 – (13:55) – In Habakkuk, when the prophet asked God when He was going to help him get His people in line. Is that like something that is happening in our Nation today?

3 – (18:40) – 2 Timothy 3:5 “having a form of godliness but denying its power. Have nothing to do with such people.” Does the Bible tell us that we can live without sin?

4 – (24:15) – In regards to Jesus’ birth – how does Him being born by a female alleviate Him from being born in sin since we all were born into sin (male and female)? Wasn’t Mary still considered a sinner?

5 – (34:20) – I listen to a lot of sermons and Christian music on my phone and recently came across a Christian artist that calls herself an LGBTQ Christian musician. Please comment on this.

6 – (38:54) – What is more relevant – prayer or praise? What is the best way to approach God, do I praise Him and then have my prayers where I ask for things to be?

7 – (44:15) – When God turns people over to a reprobate mind, is there any hope for them?

8 – (49:25) – In the Garden, sin was brought into the world from Adam and Eve. Was it from Eve since she ate first or was it from Adam since he was the head? With Jesus’ birth, I think that it is different since God can do anything He wants in manifesting himself into man.

9 – (53:22) – Acts 20:25 – Where it says that Paul has gone preaching the “Kingdom of God” but in a previous verse it said that he was preaching the Gospel of the “Grace of God”. Why does he refer to it to two different topics? Also in John 20:22, when Jesus breathed on them and said “receive the Holy Ghost” but Thomas wasn’t with them – what does that verse really allude to in the context of that chapter?

10 – (58:15) – Were the Nephilim Soul-less (without souls)? And have any of them become unearthed?
