TEXT: Revelation 18:23...for thy **merchants** were the great men of the earth; for by thy **sorceries** were **all nations deceived**.

Mark 5:3 Who had his **dwelling among the tombs**; and no man could bind him, no, not with chains:

Isaiah 65:4 Which remain among **the graves**, and lodge in the monuments, which eat swine's flesh, and **broth of abominable things is in their vessels**.

Revelation 18:13...slaves, and souls of men.

23...for thy **merchants** were the great men of the earth; for by thy **sorceries** were **all nations deceived**.

Jeremiah 51:7 Babylon hath been a golden **cup** in the LORD'S hand, **that made all the earth drunken: the nations have drunken of her wine**; therefore **the nations are mad**.

Revelation 17:2...and the inhabitants of the earth have been **made drunk** with the wine of her fornication.

Revelation 18:3 For **all nations have drunk of the wine** of the wrath of her fornication...

Proverbs 23:29 Who hath woe?...

30 They that tarry long at the wine; they that go to seek **mixed wine**.

"That is, not wine diluted...but made stronger and more inebriating, by the addition of more powerful ingredients, as...opiates, etc."

(Treasury of Scripture Knowledge)

Matthew 27:34 They gave him vinegar to drink **mingled with gall**: and when he had tasted thereof, he would not drink.

Revelation 9:21 Neither repented they of their murders, nor of **their sorceries**, nor of their fornication, nor of their thefts.

Malachi 3:2 But who may abide the day of his coming? and who shall stand when he appeareth?...

5 And I will come near to you to judgment; and I will be a swift witness **against the sorcerers**, and against the adulterers,

- By 2003, 25.3. billion spent on drug promotion.
- \$123 billion industry!

Jude 1:19 These be they who separate themselves, **sensual**, having not the Spirit.

Nahum 3:4 Because of the multitude of the whoredoms of the wellfavoured harlot, the mistress of **witchcrafts**, that **selleth nations** through her whoredoms, and families through **her witchcrafts**.

Galatians 5:20 Idolatry, **witchcraft**, hatred...

"[Galatians 5:20]...primarily means pharmacy, or medication..."
(*People's New Testament*)

"Hippocrates uses the verb pharmakeuein...with the meaning of to drug a person, to give a stupefying draught..."
(A.C. Wooten, *Chronicles of Pharmacy*, 1910)

"Those who have delved into the history of medieval witchcraft in Europe will remember that the witches were said to **take certain drugs** to assist levitation...The **Mexican sorcerers** also intoxicated themselves with powerful drugs...[T]o practice this art, the sorcerers, usually old women, shut themselves in a house, and intoxicate themselves..."
(*The New Age Magazine*, Volume 25, Scottish Rite Masonic Order, 1914)

"...from the very outset, we see sorcery associated with poison."
(Jan Jakob Maria Groot, *The Religious System of China*, 1907)

- Carlos Castaneda (1925–1998), wrote *The Teachings of Don Juan* (1968), describing his alleged training in shamanism, under a Mexican-Indian witchdoctor. He showed how psychotropic drugs are used to "kick" open (away!) the mind to the help of "inorganic beings."

"...If you seek with the mind, it will not take you anywhere...."
(Castaneda)

John 8:44 Ye are of your father the devil, and the lusts of your father ye will do. He was a **murderer** from the beginning...

Isaiah 47:11 Therefore shall **evil come upon thee**; thou shalt not know from whence it riseth: and mischief shall fall upon thee; thou shalt not be able to put it off: and **desolation shall come upon thee suddenly**, which thou shalt not know.

12 Stand now with thine enchantments, and with the multitude of thy sorceries...

"...virtually all of the gun-related massacres that have made headlines over the past decade have had one thing in common: They were perpetrated by people taking Prozac, Zoloft, Luvox, Paxil or a related antidepressant drug."

(Dr. Julian Whitaker, M.D., "The Reason Behind the Madness")

"I have warned of the dangers of psychiatric drugs in KA Update #6 (March 6th, 1999), at the very time Harris [of Columbine] was taking a psychotropic drug and Klebold was seeing a 'psychological counselor.' The very next month (April), the two boys would commit their infamous school massacre."

"The last resort of the educated person these days tends to be the psychiatrist. That means that psychiatrists are really our priests. That they constitute our religion."

(Dr. Peter Breggin, Harvard-trained psychiatrist; "The Nobody Show," Jan., 24, 1996)

"Marx said that religion is the opiate of the people. In the United States today, opiates are the religion of the people."

(Thomas Szasz, 1970)

Mark 9:20 And they brought him unto him: and when he saw him, straightway **the spirit** tare him; and he fell on the ground, and wallowed foaming.

21 And he asked his father, How long is it ago since this came unto him? And he said, **Of a child.**

22 And **ofttimes it hath cast him into the fire, and into the waters, to destroy him.**

- The FDA in 2004-2005 finally issued a "warning" about children and suicide in regard to psychotropic drugs. In 2007, it expanded it to young adults.

"Antidepressants cause suicide in children **and adults**...the APA has also been busy trying to dampen...the effects of [these] FDA black-box warnings."

(Breggin, *Talking Back to Prozac* (1994; updated)

"...Mohammedism...is not the worn-out...thing that some people think it to be...Why was it that this people were so strong? Because they did not drink alcohol. Because they did not partake of the deadly drugs that are undermining the Christian nations. Because they did not eat the accursed swine's flesh, which is responsible for so much disease...I warn the Christian nations of America and Europe. Islam is not dead...[M]uch as I would like to see [alcohol and tobacco] destroyed, the poisons which are to be found in every drug store are more deadly...These miserable doctors themselves are taking them...[leading to murders] and suicides...Have you not noticed that these poor, miserable boys at Cincinnati who murdered...were victims of morphine?...Have you not noticed that the doctor in St. Louis [who killed] his child and murdered his wife was a victim of morphine?...**These poisons turn men into cunning and depraved criminals**...We have protested against the use of all these degrading poisons which are narcotic in their character, and are first destroying the brain, then shattering the nerves, and then **opening the heart** to all the filthy and diabolical suggestions which **the evil spirits** can possibly put within the human spirit...[D]rugs...are digging the graves of the best and noblest men in this land...These

doctors in their accursed folly give it, and they take it themselves. May God smite these horrid drugs...May He set His people free from them...Sorcery cannot be stopped by legislation...May God grant that His Holy Spirit shall so impress this people that His law shall be known...that they shall legislate for themselves...the first protest...is against the sorcerers. It is against the pharmacists; against the doctors; against the drugs, and against the devils which are in both the doctors and drugs...Will some of you go around by hell to get to heaven?"

"I declare as my conscientious conviction, founded upon long observation and experiment, that, if there were not a single physician, surgeon, chemist, drug or druggist on the face of the earth, there would be less sickness, and less mortality, than now prevail."

"According to a report by pharmacy benefits manager Medco Health Solutions Inc, **more than one in four U.S. women** took at least one drug for conditions like anxiety and depression last year...**More than 20 percent** of U.S. adults were found to be on at least one drug for mental health disorders..."

"Watching too much TV can cause depression."

"...there were [56,000] people hospitalized with anxiety and manic depressive illness in 1955.

Today...[there are] at least 40 million adults..."

(Robert Whitaker, *Anatomy of an Epidemic*, 2010)

"*Pharmageddon: America's bitter pill* - The United States has a passion for pills, being the world's biggest users of psychotropic drugs, consuming 60 per cent of them. And pharmaceutical firms are keen to keep cashing in on the multibillion-dollar market, even if it costs people's health...a widespread fondness for pharmaceuticals has turned the US into a nation of pill-poppers....Dr. Harriet Fraad [New York] believes Big Pharma has manufactured a climate of insanity by manipulating and even creating illness for capital gain. 'One of the things that drives Big Pharma is to find a diagnosis that is very vague, so that everybody can fall into that,' she told RT. [One commercial promises their drug will] make you happier, but side-effects may include dry mouth, insomnia...dysfunction, diarrhea, nausea and sleepiness.' Critics also say Big Pharma uses its financial muscle to ply doctors with gifts, cash kick-backs and research funding in exchange for endorsing or prescribing the latest and most lucrative drugs. Harriet Fraad says there is a whole network of doctors hustling these drugs...'They're given out like M&Ms.' Last year, prescription drug abuse became the number one cause of accidental death...The number of children consuming antipsychotic medication has doubled in the past decade...Author of *Surviving America's Depression Epidemic*, psychologist Bruce Levine, told RT that, 'All these drugs are very similar to illicit or illegal drugs, except they're more dangerous...' The pharmaceutical industry remains the most profitable business in the US."

"Hitler himself believed in a kind of mystic medicine, just as he liked magic and astrology...His doctor [Dr. Morell] dosed Hitler with drugs...morphia...hypnotics...narcotics, stimulants...Hitler was injected daily..."
(H.R. Trevor-Roper, "The Last Days of Hitler," *Life Magazine*, March 17, 1947)

"In time, Hitler was taking twenty-eight different kinds of drugs - narcotics to make him sleep and stimulants to keep him awake. He carried hundreds of pills of different colors with him munching on them all day."
(Louis Leo Snyder, *Hitler and Nazism*, 1961)

"Many children have suffered harmful side effects from using psychotropic drugs. Some of the possible side effects include mania, violence, dependence and weight gain. Yet, parents are already being threatened with child abuse charges if they resist efforts to drug their children. Imagine how much easier it will be to drug children against their parents' wishes if a federally-funded mental-health screener makes the recommendation."
(Dr. Ron Paul, on his bill)

"Now there is a Government...report, confirming that foster children in five states...[including Texas] are receiving shocking amounts of psychiatric drugs. In the words of ABC News, they are 'being prescribed psychiatric medications at doses higher than the maximum levels approved...' And hundreds of foster children received five or more psychiatric drugs at the same time...The ABC News report shows one 7-year-old holding a bag filled with 13 psychiatric medications that she had taken...Why are these highly-toxic drugs being given to so many children in foster care? The antipsychotic drugs can **suppress** the highest centers of the brain - **the frontal lobes** - leading to indifference and apathy, which makes the children more docile and easier to manage..."

- Blood letting from 1st century to 19th! In 1878, cocaine was promoted for shy young people! Freud called it a miracle drug, and he found that it made him more *cheerful*, and that it produced more self-control, and more vitality to work. Three years later, he had changed his tune! In 1892, they used arsenic, horse serum, etc., to treat lunatics. Then, amphetamines were the "medical answer" in the 1930's. In the 1940s, they induced people into comas with insulin. Then, they used shock therapies, inducing seizures. And next, **lobotomies** became fashionable! In the early 1950's, the first generation of psyche drugs were developed:

"[They]...produced a veritable chemical lobotomy."
 (Robert Whitaker, *Anatomy of an Epidemic*, 2010)

"The symptoms of these patients do resemble those of people who have had a lobotomy...producing a robot-like state..."
 (Breggin, *Talking Back to Prozac*)

- In 1954, psychiatrists experimented with LSD (from peyote), to help "treat" schizophrenics.
 (Huxley, *Doors of Perception*)
- In 1955, they admitted their drugs were not treating an actual disease. No disease was identified!

"[They have]...forever transformed our society into a wall-less asylum...a psychotropia...Life, it seems, should be pain free...no anxiety or depression...is to be tolerated...mass media [is used] to inform and persuade Americans that it is **normal to be...numb**...thus, creating a society where **the majority are 'mad'** and medicated."

"Prozac is now a defense for murder, writes Australian Member of Parliament...Anti-depressant manufacturers warn that products such as Prozac should not be given to children, because of the potentially tragic consequences, but they are prescribed every day to Australian kids. This is what happened, with fatal results, in the case of a 16-year-old boy in Canada who stabbed a friend to death...A 16 year old boy suffering from agitation and auditory hallucinations heard voices 'telling him to kill...'"

LOONY ON LIQUID LITHIUM!

- In the 1970s, they developed **liquid** psychotropics to keep "patients" from hiding the pills under their tongues. They also used forced injections!

"*Liquid Medicine: Controversial Call to Add Lithium to Drinking Water for Mental Health...the next fluoride: and additive with such therapeutic potential, it should be ingested by millions of Americans every time they pour a glass of drinking water.*"

"The Federal Government does not test specifically for pharmaceuticals in the water. In fact there is no way to scrub water at a treatment plant for pharmaceuticals...I did a story about four years ago, in which we found a river in Colorado...in which the fish were turning from male to female...[due to estrogens in the water]...what's the effect on humans?"

(Tom Costello, NBC News, http://www.youtube.com/watch?v=M2qUwtUFy_M&feature=related)

"Analysis of tap water supplies in major metropolitan areas conducted by the Associated Press has revealed that the water supply in 24 major U.S. cities - serving over 40 million people - are contaminated with trace amounts of pharmaceuticals including antibiotics, anti-seizure medications, anti-inflammatory drugs, psychotropic drugs, pain medications and even caffeine. The upshot of the report is that tens of millions of Americans are unwittingly being subjected to a bizarre medical experiment with unpredictable results...One of the most startling realizations of the study is that Americans are now using so many medications that their own biological waste products are becoming large-scale environmental pollutants...ranchers, watering their cows, pigs or chickens also means dosing those animals with small amounts of pharmaceuticals, and for public schools in the affected cities, all the water fountains used by the children are now functioning as **mass medication dispensing machines**...It is essentially a **mandatory medication** carpet-bombing of the entire population...Deformities in fish are being increasingly reported in rivers...[Furthermore,] in major U.S. cities, almost everybody is drinking somebody else's recycled urine!... It's enough to make you sick. Literally...This is the water used to make sodas and other beverages at local bottling plants...water treatment facilities...only sanitize the water by adding chlorine to kill microorganisms. They don't actually remove toxic chemicals from the water...Ozonation can break down some - but not all - medications...avoid drinking tap water, period...it might be better described as 'drinking Big Pharma's kool-aid,' because the pharmaceutical industry is now founded on a **cult-like belief** in chemicals promoted by commissioned drug reps, psychiatric zealots and mind-numbed doctors. The level of irrational belief in the power of pharmaceuticals has reached such a fervor that it can only have been made possible by a mass brainwashing of gullible professionals. They have schools dedicated to this dark art - they're called 'med schools'...Seriously, this tap water contamination is yet one more reason to consider leaving the city and moving closer to nature.
