**Sermon Text: Genesis 10:31-11:26; Psalm 2:1-12**

1. God created us for himself. He wants us to find our security, our hopes and ultimate comforts in him.  
What’s wrong with this?

2. They wish to build a city with a huge tower in order to make a name for themselves this is in direct defiance against God who created mankind to depend upon him to find their name in him.

3. Their second motive for building the city and the tower, more clearly shows their defiance of God. They say they wish to avoid being scattered. But human beings spreading across the earth was precisely what God wanted!

4. God wants the world united, but united in Christ! All understanding the language of salvation! All living in peace and serving the Lord who created and redeems!
