**How God Can & Cannot Be Known**

1. If you are talking to a friend about God and they say, “You know, God’s existence just is not clear to me at all. There is just not enough evidence for God. If He would personally show up then I’d believe in Him.” What passages of Scripture should your mind begin to gravitate to?
2. According to Scripture what has your friend done?
3. In 3 points write out the cosmological argument for the existence of God?
4. Is this argument valid? Why or why not?
5. Draw a diagram illustrating the wrong way to talk about God.
6. Draw a diagram illustrating the right way to talk about God.
7. In Isa 40:25-28 what is a key word we use to talk about God?
8. What does this word mean? How do we have to qualify this word?
