

The Myth of Evolution

Charles Darwin

“Analogy would lead me to the belief that all animals and plants are descendants from one prototype. All organisms start from a common origin and from some low and intermediate form both animals and plants have developed. All organic things which have ever lived on the earth may be some one primordial form”

I Reject Evolution For:

1. LOGICAL REASONS

Dr. Newton Tahmisian, physiologist for
atomic energy commission

**“Scientists who go about teaching that
evolution is a fact of life are great con
men and the story they are telling may
be the greatest hoax ever. In explaining
evolution, we do not have one iota of
fact”**

Dr. Etheridge of the British Museum of Science said,

“9/10ths of the talk of evolution is sheer nonsense. Not founded on observation and wholly unsupported by fact. This museum is full of proofs of the utter falsity of their view”

Dr. Ambrose Fleming, President of the
philosophical society of Great Britain,
**“The Evolution Theory is purely the
product of the imagination”**

Dr. Cecil Wakely, leading British surgeon and the late president of the Royal College of Surgeons said,

“When I was a medical student I was taught the theory of Evolution but I never believed it.”

Soren Lovtrup, Swedish Embryologist,
wrote this,

“I believe that one day the Darwinian myth will be ranked the greatest deceit in the history of science. When this happens my people will pose the question, ‘How did this ever happen?’”

FOUR BRIDGES THE EVOLUTIONIST CANNOT CROSS

1. The Origin of Life

Adam Watson, Scottish scientist,
“Evolution is the theory, universally
accepted not because it can be
proved by logical coherent evidence
to be true, but because the only
alternative, “special creation”, is
clearly incredible”

- 2. The Missing Link Cannot be Found**

Genesis 1:11-12

Then God said, “Let the land produce vegetation: seed-bearing plants and trees on the land that bear fruit with seed in it, according to their various kinds.” And it was so. The land produced vegetation: plants bearing seed according to their kinds and trees bearing fruit with seed in it according to their kinds. And God saw that it was good.

Entropy:

Energy cannot be destroyed but it continually becomes less available for further work as it unravels. It is also referred to as “Random Disorder”.

4. How do you explain certain properties apart from evolution

Charles Darwin

“At some future period, not very distant as measured by centuries, the civilized races of man will most certainly exterminate and replace the savage races throughout the world. At the same time the anthropomorphic apes will not doubt be exterminated.”

Charles Darwin

.... The break between man and His nearest allies will then be wider for it will intervene between man in a more civilized state as we may hope. Even the Caucasian and some ape as low as a baboon, instead of between the Negro or Australian or the gorilla”

Adolf Hitler,

“I have the right to exterminate an inferior race that breeds like vermin”

H.G. Wells

“If all animals and man evolved, then there were no first parents, no paradise, no fall And if there had been no fall, then the entire historic fabric of Christianity, the story of the first sin and the reason for the atonement, collapses like a house of cards”
