

Message Title: The Creator's Genius Pt-5

Theme: This message looks at how God designed the simple chicken egg for continuing the species and for a food supply that is harmless to the chicken. Eggs were created by God as He spoke the words, “Be fruitful and multiply and let the fowl multiply in the earth”. That is all He needed to do.

It's easy to be impressed by the complexity and size of the Space Station or Nanotechnology that functions on a microscopic level, but the simple chicken egg is still much more amazing. We just don't notice it because the genius on display on this earth has become ordinary and we have lost that feeling of amazement that a child feels when they have a new experience.

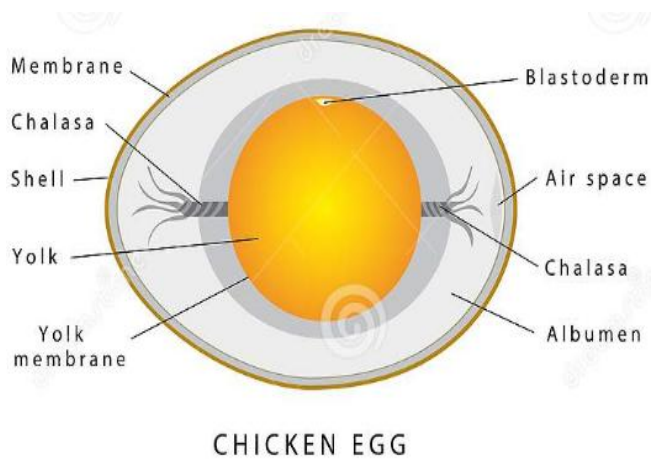

What size factory would it take to make eggs? Then how could it be designed so that blood vessels and a heart all started growing in the right places from a single fertilized cell? Even if we could make such a thing, how is it possible to build a clock into it so that on day five the heart would come to life automatically to supply circulation for making bones, eyes, feathers and another complete reproductive system? And yet God put all of it inside a chicken egg.

It's easy for experts to explain how they were able to accomplish amazing things because there was a progression to follow, but to speak matter into existence requires the ability to convert energy into substance and that's far beyond man's understanding.

King David became aware of some of God's awesome powers and said in Psalm 33, “By the word of the LORD were the heavens made; and all the host of them by the breath of his mouth. He gathereth the waters of the sea together as an heap: he layeth up the depth in storehouses. Let all the earth fear the LORD: let all the inhabitants of the world stand in awe of him. For he spake, and it was done; he commanded, and it stood fast”. This reality is missing from the modern pulpits because the focus has narrowed to our salvation, service, sin and rewards.

The speaker would like you to know that all of these messages are in the chronological progression as God revealed them, and even though many may stand alone, they progress through several subjects that build on the previous lessons. This series of messages titled "Our Timeless Creator" (OTC), shift the focus from salvation and service, to understanding God. How He who needs nothing, benefits from creating the human race. It started in 2007 when God brought the speaker to Psalm 50:15 three times following the miraculous healing of his dying wife. It reads, ***“And call upon me in the day of trouble: I will deliver thee, and thou shalt glorify me”***. Following this he prayed fervently. "LORD, show me how to glorify you and I will do the best I can". The speaker had become a new creature, (2 Corinthians 5:17) on May 20 1973. At that moment the reality of GOD's existence and the direct connection to the Bible became miraculously clear. Overwhelmed with excitement he began telling everyone who had a few moments to listen, to what he had found, like a man who had found a cure for a terminal illness, which everyone had. His excitement and enthusiasm continued for well over a year, even when many said, "you'll get over it." Slowly his efforts began to focus on responsibility and all the how-tos of service. As the excitement faded it was replaced with frustration. He had said many times "the most frustrating thing in life, is knowing what GOD could do and watch him not do it". In 2005 GOD began a work as described in Job 5:17-18, that changed everything. He says," it was much like when I first became a child of God all over again". He describes it like application of (2 Corinthians 3:18), "But we all, with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, ***even*** as by the Spirit of the Lord". Truly a life changing experience as God increases and we automatically decrease.
