## "Why Should Anyone NOT Fear God?"

## The Attributes of God, Wrath (#18) Hebrews 10: 26 - 31

February 18, 2024

"Vengeance is mine..." (Hebrews 10: 30)

If we desire to know and love God as we ought, we MUST not forget that God is just as wrathful as He is loving.

1.	As we become caught up in the love of God, we are in danger of forgetting the wrath of God.
	a. We are in grave danger if we continue to willfully sin once we have believed the Gospel
	b. God will pour out His wrath on sin, including our sin as well.
2.	God's wrath upon sin is a very real thing for the lost AND especially for the saved.  a. We understand that God will judge the sin of the lost world with impunity.
	b. Why would we think God will do any less toward those who have claimed His grace.
3.	Therefore; we MUST approach God with the fear and reverence that He demands.
