Sermon: The Strike Which Cannot Be Blocked! "The Faithful Outcasts" Pt.11

I Text:

Old Covenant: Isaiah 49:1-7

New Covenant: Hebrews 4:12,13

II Doctrine:

The Word of God is the strike which cannot be blocked. When we wield the word of God it always strikes the target. The person killed by this sword will be resurrected as a new man, or remain dead in their sins. The amazing predictions God gave the Prophets concerning the Word of God have all come to pass. The Gentiles who knew not God endlessly recite and obey Ephesians chapter six. Gentile children now speak about the "sword of the Spirit" in their Bible classes. It is the only offensive weapon concerning the armor of God.

The Lord in his infinite power sees all things. The acts of men are accurately predicted by the Word of God. There is nothing in creation that can hide from the eyes of the Lord. Men are trying to emulate this ability God has with artificial intelligence, it will lead to their downfall.

III Comparing Scripture With Scripture:

1) The Word of God is the strike which cannot be blocked. When we wield the word of God it always strikes the target. The person killed by this sword will be resurrected as a new man, or remain dead in their sins. The amazing predictions God gave the Prophets concerning the Word of God have all come to pass. The Gentiles who knew not God endlessly recite and obey Ephesians chapter six. Gentile children now speak about the "sword of the Spirit" in their bible classes. It is the only offensive weapon concerning the armor of God. (*Hebrews 4:12; Isaiah 49:1-7; Ephesians 6:10-17*)

2) The Lord in his infinite power sees all things. The acts of men are accurately predicted by the Word of God. There is nothing in creation that can hide from the eyes of the Lord. (*Hebrews:4:13; Jeremiah 16:14-21*)

3) Men are trying to emulate this ability God has with artificial intelligence, it will lead to their downfall. They will never be able to predict the future the way the Word of God has.
