#### Praxis

1. What are some “holy spaces” (times, events) in the present age that are set aside for the church to meet with God? for you as an individual to meet with God?
2. What kind of everyday necessities tend to most encroach upon that space with you?
3. We all battle from time to time with viewing “God’s required feasts” as a real “inconvenience” for us... What moves you from drudgery to delight in such times?
4. Consider/Discuss this statement about our New Covenant freedoms: “We are freed from the Mosaic stipulations of form of worship, but not from the kinds of worship God expects His people to bring”
