1. Transhumanism is a recent cultural movement and philosophy that believes humanity can change its _____ and _____ through _____ progress.

2. Transhumanism assumes human _____ to be a fact and that humanity is soon poised to make a giant evolutionary _____ through new technologies.

3. Transhumanists view individual _____ as uploading one's _____ to the cloud; and one day the _____ will occur in which human intelligence finally and completely merges with much more powerful machine intelligence. (Gen. 3:4)
 - *Why is this dehumanizing?*

4. Transhumanism encourages _____ in the wrong object—the _____ of one's own hands or technological achievements rather than God. (Ps. 20:7; Isa. 31:1; Jer. 17:5-9)

5. Transhumanism appeals to human _____, resulting in the ultimate _____ of humanity thinking it is _____ and _____, though the Bible says only God can create or give life. (Exod. 8:19; Job 12:10; Ps. 100:3; 104:30; 119:73; 1 Tim. 6:13; Rev. 1:18; 10:6)
 - *What lie has tempted humanity in the past and will again in the future Tribulation?* (Gen. 3:5; Ezek. 28:2; 29:3; Acts 12:21-23; Rom. 1:25; 2 Thess. 2:4, 11; Rev. 13:4, 8, 12, 15)

 - *Will God limit how far technology and transhumanism will go?* (Gen. 11:6; Job 38:11; Ps. 33:10; Prov. 19:21; Acts 17:24-26; 2 Tim. 3:7, 9, 13)

 - *What should we remember in light of all this?* (Rom. 16:20; Rev. 4:11; 11:15-17)
