

Message Title: The Creator's Genius Pt-12 & 13

Theme: In this message a few of the special characteristics of design are considered that make both the Dragonfly and The Hippopotamus distinctive. Differences that set them apart from everything else that God created and gave them their individuality.

Just as an artist develops their individual style so that their works become recognizable even to the untrained eye, God also created similarities into everything that He made, and the incredible variety of living things is a display of God's creative ability to design.

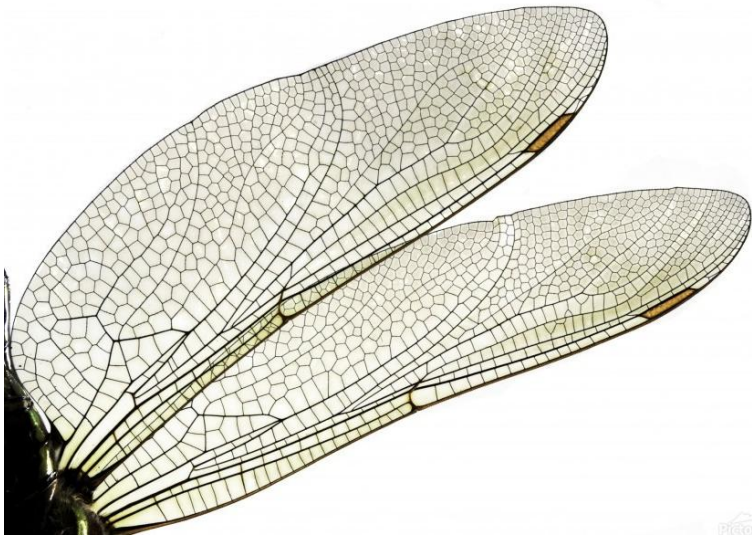

The word design means to plan in advance of production, every detail needed to develop the intended outcome. However evolutionists use the word to gloss over the incredible complexity of order on display throughout the universe. Comments such as "Mother Nature" and "Life will find a way" may sound like a sensible explanation for the abundance of life on this unique planet, but in fact they have no connection to scientific facts. Mother Nature is in reality, just a figment, and Life as spoken of by evolutionists, becomes an inventor or even thought of as a creator.

The variety of special features that God incorporated into His work not only proves real genius but a strong desire for variety. It also reveals a Creator who is unlimited in power and abilities and one who is definitely not boring or mundane.

Salient Points: When God is working, God's greatness, God's glory, Focusing on God, Mislead, Dragonflies, Tadpoles, Faceted eyes, Good bugs, Flight engineering genius, 457 species, Wing structures, Created to impress, Just brag on God, Where has your attention been, The River Horse, 7,000 lbs, Submersed sleeping, Evolution vs Design, Designed for function, 30 miles an hour, Man killers, Special skin protection, For God's pleasure.

The speaker would like you to know that all of these messages are in the chronological progression as God revealed them, and even though many may stand alone, they progress

through several subjects that build on the previous lessons. This series of messages titled "Our Timeless Creator" (OTC), shift the focus from salvation and service, to understanding God. How He who needs nothing, benefits from creating the human race. It started in 2007 when God brought the speaker to Psalm 50:15 three times following the miraculous healing of his dying wife. It reads, "***And call upon me in the day of trouble: I will deliver thee, and thou shalt glorify me***". Following this he prayed fervently. "LORD, show me how to glorify you and I will do the best I can". The speaker had become a new creature, (2 Corinthians 5:17) on May 20 1973. At that moment the reality of GOD's existence and the direct connection to the Bible became miraculously clear. Overwhelmed with excitement he began telling everyone who had a few moments to listen, to what he had found, like a man who had found a cure for a terminal illness, which everyone had. His excitement and enthusiasm continued for well over a year, even when many said, "you'll get over it." Slowly his efforts began to focus on responsibility and all the how-tos of service. As the excitement faded it was replaced with frustration. He had said many times "the most frustrating thing in life is knowing what GOD could do and watch him not do it". In 2005 GOD began a work as described in Job 5:17-18, that changed everything. He says," it was much like when I first became a child of God all over again". He describes it like application of (2 Corinthians 3:18), "But we all, with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, ***even*** as by the Spirit of the Lord". Truly a life changing experience as God increases and we automatically decrease.
