

## **Message Title:** The Creator's Genius Pt-10&11

**Theme:** This message considers some of the unique designs that God incorporated into whales and the Pacific Golden Plover. Abilities that are not only essential for the creatures to function but without which they would never have survived their first attempt to try.

In the 1830s Darwin suggested the possibility of an evolutionary change that may explain the enormous variety of species on earth. Then in 1859 he published *The Origin of The Species* which is now accepted as evidence of evolution, and taught as a scientific truth.

In Romans 1:21 we are told, “Because that, when they knew God, they glorified *him* not as God, neither were thankful; but became vain in their imaginations, and their foolish heart was darkened.” This was in print, just as it appears here over 200 years prior to Darwin’s theory, and the truth of the word, “imagination” becomes abundantly clear as we consider how men have tried to erase accountability from our thoughts. Where did Mother Nature come from and how did she become so powerful and spoken of as though she existed? Why is there a Santa Clause and why do we persist in lying to children about him? No one believes that there is a real Easter Bunny that lays eggs for children, but it is still promoted in the minds of children. Even the date of our birth has been attacked by changing BC and AD into BCE and CE, meaning before the Common Era and the Common Era. No doubt these are part of the imaginations that Paul wrote about as further evidence for believers to identify “science falsely so called”.

The bigger problem is not how species developed but when did life start. Life is a continuation from one life to the next life; it had no beginning, as well as matter and energy. For life, matter and energy to exist they had to exist throughout eternity and continue until now. This is not a matter of belief, but of a scientific fact. “Great is our Lord, and of great power: his understanding is infinite.” Psalms 147:5

The speaker would like you to know that all of these messages are in the chronological progression as God revealed them, and even though many may stand alone, they progress through several subjects that build on the previous lessons. This series of messages titled "Our Timeless Creator" (OTC), shift the focus from salvation and service, to understanding God. How He who needs nothing, benefits from creating the human race. It started in 2007 when God brought the speaker to Psalm 50:15 three times following the miraculous healing of his dying wife. It reads, ***“And call upon me in the day of trouble: I will deliver thee, and thou shalt glorify me”***. Following this he prayed fervently. "LORD, show me how to glorify you and I will do the best I can". The speaker had become a new creature, (2 Corinthians 5:17) on May 20 1973. At that moment the reality of GOD's existence and the direct connection to the Bible became miraculously clear. Overwhelmed with excitement he began telling everyone who had a few moments to listen, to what he had found, like a man who had found a cure for a terminal illness, which everyone had. His excitement and enthusiasm continued for well over a year, even when many said, "you'll get over it." Slowly his efforts began to focus on responsibility and all the how-tos of service. As the excitement faded it was replaced with frustration. He had said many times "the most frustrating thing in life is knowing what GOD could do and watch him not do it". In 2005 GOD began a work as described in Job 5:17-18, that changed everything. He says, "it was much like when I first became a child of God all over again". He describes it like application of (2 Corinthians 3:18), "But we all, with open face beholding as in a glass the glory of the Lord, are changed into the same image from glory to glory, *even* as by the Spirit of the Lord". Truly a life changing experience as God increases and we automatically decrease.
