Joel 3:1-2

(Basic Bible in English)

Sunday School was not held 5-15-11

Thursday, May 19, 2011, President Obama had a meeting with the leader of Israel. As Christians, we need to understand what is going on in our country today. There is something called the Peace Process by the US Government: it means, Israel, we are telling you to give up your land for peace. Today is not a political message, don't misunderstand.

Joel 3:1-2

1 ¶ For, behold, in those days, and in that time, when I shall bring again the captivity of Judah and Jerusalem, This is talking about the tribulation, but it still applies today.

2 I will also gather all nations, and will bring them down into the valley of Jehoshaphat, and will plead with them there for my people and for my heritage Israel, whom they have scattered among the nations, and parted my land. There's a warning here: whatever nation, through out history, comes and occupies Israel, the Lord's land, will be judged harshly. God will deal harshly with the enemies of Israel. Today there is more anti-Semitism in the world, even worse than before. The prophecy here was written 800 years before Christ. God gave the Jews the land of Israel. They are the only people on this earth that have a deed to any land. Palestine didn't exist when Israel came about. Does God really mean what He says here? Will He really take retribution on nations who are enemies of Israel? You bet. The Babylonians fought Israel in 600 B.C. and look what happened: Babylonia is no more, it's just ruins. Persia – 500-300 B.C. – currently in ruins, listed only in history books. Greece: today its economy is in total ruins, and there is rioting in the streets. The great empire on Greece is gone, and the remnants are in ruins. Rome – ruins today – used to cover most of the country. Byzantine Empire: gone, history books only, it doesn't even exist today. Muslims: if they're not fighting the Jews they're fighting each other. They are not a nation, but they are a political group that uses religion in a twisted sick way. The Brotherhood of Muslims is a political subdivision in the Muslim group who are trying to get control of the area, especially Egypt. They are very anti-Semitic. The Crusaders: gone, ancient history. They killed Jews by the thousands in their day. Great Britain: used to be the number one empire of the world. They are financially broke now, a shadow of what they used to be, and

they hated the Jews. At one time they expelled all the Jews off their island, took their wealth, and look at them now. Germany: tried to wipe out all Jews on the face of the earth – now a shadow of their former self. Spain: anti-Jewish, now not much of a nation. The United States of America has been the friendliest nation toward Israel, but even we turned away Jews who were trying to escape the concentration camps. If they made it to Israel, they were imprisoned in their own country.

Check out and read about the Madrid Conference. Oct 30, 1991, President G.W. Bush opened the Madrid Conference to create peace in the MidEast. At that time, a perfect storm developed, destroying some of Bush's personal property. Coincidence? A year later, Aug 23, 1992, the Madrid Conference moves to Washington D.C and Hurricane Andrew came – worst natural disaster ever to hit America's mainland. Coincidence? Jan 16, 1994, new president: meeting for another peace conference about Israel giving up land. Less than 24 hours after this discussion, the big earthquake hit Northridge, California. Mar – April 1997: Yassar Arafat came to tour America. Clinton was rebuking Israel for not giving up their land for peace. When Arafat landed in America, great tornadoes struck Tennessee and a couple other states in the midsouth. There was the worst flooding in history in South Dakota. Arafat leaves the U.S., and the storms quit. Coincidence? 1999: Clinton has a meeting in the White House and refuses admittance for the Israel leader. What happened? Monica Lewinski. They were trying to finalize the deal of Israel giving up their land, and the hurricanes pounded the south east. The day Arafat left American soil, the storms dissipated. Coincidence? You decide. Obviously we've had plenty of unheeded warnings.

Wake Up, America!!!
