

The CREATION of the WORLD

Genesis 1 Sudden Creationism part 2, Tough Stuff 2015

Introduction:

Psalm 19:1 The heavens are telling of the glory of God; And their expanse is declaring the work of His hands. Romans 1:20 For since the creation of the world His invisible attributes, His eternal power and divine nature, have been clearly seen, being understood through what has been made, so that they are without excuse.

2 Timothy 3:16 All Scripture is inspired by God and profitable for teaching, for reproof, for correction, for training in righteousness: 17 so that the man of God may be adequate, equipped for every good work.

Psalm 6:6 "All night I make my bed swim; I drench my couch with my tears,"

Psalm 119:128, "all Your precepts concerning all things I consider to be right"

Henry Morris The only proper way to interpret Genesis 1 is not to 'interpret' it at all. That is, we accept the fact that it was meant to say exactly what it says.

Ulam argues *it was highly improbable for the eye to evolve by the accumulation of small mutations, Darwin wrote: "If it could be demonstrated that any complex organ existed which could not possibly have been formed by numerous, successive, slight modifications, my theory would absolutely break down."*

Professor Richard Goldschmidt, a geneticist at the University of California at Berkley, said *it is impossible for these complex organs to form on their own, even with millions of years. Goldschmidt says, To suppose that such a random event could reconstruct even a single complex organ like a liver or kidney is about as reasonable as to suppose that an improved watch can be designed by throwing an old one against the wall."*
