“All About Angels: More About Angels”

Colossians 1: 16; 1 Thessalonians 5: 23

Angels are **spirit** beings.

“Spirit means existence on a level above and beyond matter, it means life subsisting in another mode. Spirit is substance that no weight, no dimension, no size nor extension in space. These qualities belong to matter and can give no application to spirit. Yet spirit has true being and is objectively real.” - A. W. Tozer
