

Join Me in Resisting

Yesterday, I was experiencing a great deal of frustration regarding the COVID situation; the lock-downs, the masks, the social distancing and now the "vaccine" mandates that are coming to the fore. This huge push to conform the world to what the globalists envision is something that many Christians have simply given into and reluctantly accepted. I shared my frustration with my wife and decided the best course of action was to **pray** about things. I prayed in earnest that God would provide me with some form of enlightenment and discernment regarding this whole tyrannical situation. It's impossible for me to believe that COVID is going to be *the* situation that brings about the union of the entire world into the final global empire first highlighted in **Daniel 2**.

I simply don't believe COVID is *the* reason to bring about a fully globalized and united final world order as I stated in "[CV-19 and Future Events, Pt 1](#)," because there is already too much resistance to it. I also previously noted that it is more likely that the coming **Rapture** of the Church will be that one, global unifying event. It is interesting how I could write that and believe it to a degree, yet not have it penetrate my being.

The difference between having simply written that a few days ago and understanding it more fully now, has also unearthed some truths from Scripture that I had previously known, but they now stand out much clearer in my mind and I'd like to share them with you.

Too many Christians today have taken a "*well, we need to obey*" attitude to everything the government hands our way. They define this more precisely by stating that only when the government tells us we **cannot** preach Jesus and Him crucified do we need to "not" obey. Here's the problem with that line of reasoning. The USA is facing restrictions via **unlawful** mandates on a daily basis, issued via executive orders. Because these on their face do not appear to conflict with Christian values, many of have simply (and with frustration), given in and obeyed based on what I believe is a twisted understanding of **Romans 13**. [Sheriffs in Washington State refuse Gov. Inslee's mask mandate](#)

If you believe you must obey the government (with the one exception noted above), then you *must* submit yourself to receiving the CV injection(s). You cannot avoid it. In fact, you must obey all mandates without question, again based on **Romans 13**, because hasn't God placed governments in authority to protect us? The problem with this is that at least here in the USA, illegal mandates go against many actual laws that currently exist. When did HIPAA laws get set aside *officially*? They didn't. When did our legal right to peacefully protest government mandates

This sheriff, among others, is resisting tyrannical illegal mandates.

become unlawful? It didn't. Why are we simply giving into the powers that be who work for Satan? We shouldn't.

Right now, globalist are working very hard to **enslave** the world in order to control all people. According to Dr. David Martin in a recent interview, he clearly states and enunciates the reasons *why* the CV injection(s) is a bio-weapon. If true, does this also mean globalists are trying to kill as many people as possible?

Did you know that going back to 1986 or so was the actual start of what we are living *now*? Pfizer actually began creating a "vaccine" for CV in 1990. Are you aware that Dr. Fauci lied to Congress on at least two occasions regarding "gain of function" funding and that this gain of function was funded by Fauci's organization to the Wuhan Lab in China because there are no laws there prohibiting it? Do you know that gain of function is intended solely to take something and make it far more dangerous to human beings?

If you can handle the truth, please watch this video, just over an hour long. I think you'll find that Dr. Martin is not only intelligent, but has all the needed information on his side; information he has gained by doing tremendous research into patent histories of numerous pharmaceutical companies and the people associated with them.

The video can be viewed on Bitchute: "[Dr. David E. Martin Drops Shocking COVID Info](#)"

Here is another video with several doctors in a round-table discussion: "[We are witnessing medical genocide](#)"

The above two videos are extremely important. If what these doctors are saying is true, why are Christians simply willing to go along? It's not like we are physically being thrown to the lions. In such a case, we would have little chance to resist, wouldn't we?

Yet, here we are today, with mounting pressure from all sides to "conform" to whatever the whims of the elite happen to be and we are told that to *not* obey is unChristian. We must be willing to accept this new "normal." I'm seeing a great many Christians telling us that this is exactly what we should be doing.

I want to state clearly and for the record that I cannot agree with this. We know from Scripture that ever since the Church was born through the pouring out of the Holy Spirit onto the 120 individuals in the Upper Room (**Acts 2**), the Holy Spirit has worked *through* the Church. Part of the Holy Spirit's job is to invite and bring people to God in Christ for salvation. This is done as Christians are obedient in declaring the Gospel through our *actions* as well as our *words*. But a second job of the Holy Spirit is to *resist* Satan and the lawlessness he seeks to install throughout the world.

Clearly, things are evolving and evil is becoming more and more uncloaked and obvious, isn't it? If this is the case, has the Holy Spirit *stopped* resisting evil? Hardly. He continues to resist. The apostle Peter tells us quite plainly to *resist the devil* and he will flee from us (**1 Peter 5**). The reason for resisting Satan is because he is pure evil, opposed to God's purposes.

This should translate to *actions* that translate to *resistance*. What I mean by resistance is using every **legal** means at our disposal to stand against the enemy. While flesh and blood are *not* the enemy of our souls, it is clear that Satan often uses flesh and blood to accomplish his goals and purposes. He wouldn't have much if he wasn't able to use people in such a way.

Once the Rapture occurs and the Holy Spirit is taken out of the way (**2 Thessalonians 2**), the largest Source of resistance will be moved aside. The Holy Spirit will literally curtail His *resisting* or *restraining* evil so that it can become as evil as it needs to be during the Tribulation that ultimately follows Rapture.

What we are experiencing in life right now is a burgeoning evil that too many Christians believe we should not "resist." Aside from **Romans 13**, which I believe is often misapplied, where does the Bible tell us to stop resisting evil? I'm aware of Jesus' *Sermon on the Mount* where in fact, He does state that we should *not* resist an evil *person* (**Matthew 5-7**), however, it seems clear that understood within the context of the Roman times in which Jesus lived, He was actually offering ways to resist Roman authorities without breaking the law! That will require digging on your part and you can start here if you like: [The Christian and the Sermon on the Mount, Pt 1](#)

But would you agree with me that throughout Scripture, we are to stand for truth and resist evil? That seems clear. But how is that effectively done in today's world with illegal CV-19 mandates and measures increasingly installed?

As I laid awake at 5:00 am this morning, the thought came to me that God has the answer. In fact, it seemed to me that I was seeing several ways in which Christians can legally and righteously resist the tyranny that is growing throughout the world.

How?

Prayer: if it is the Rapture and not CV-19 that is going to fully unleash the powers of hell during the coming Tribulation to create the hellish nightmare that **Revelation 6-18** as well as other sections of Scripture attest, then it is actually *necessary* to pray against what globalists are attempting to do. We must pray in earnest that God will deliver this world from the tyranny that globalists are attempting to create; that He would cause the bottom to fall out of the situation so that it will no longer hold sway over the population. This is what people like Drs. Martin, McCullough, Tenpenny, and many other medical professionals are trying to do, often risking their livelihoods and reputations by pitting themselves squarely against evil people who currently have the power.

We must pray that God will intervene. He can always say "No" if He chooses, can't He? If we do not pray in that way, we are essentially going along with the elite's program of enslavement.

Resist: I believe because of the existing laws of the USA (as well as laws of other countries), what is happening throughout America is fully *illegal*. Executive orders in the form of "mandates" have attempted to supersede actual laws. By our compliance and obedience to them, we give tacit approval and are actually saying that these mandates have more authority than the laws. They do *not*.

By *resist*, I mean using every **legal** means at our disposal. Here are some examples:

- Stop wearing a mask. There are numerous studies that prove that masks lack efficacy to stop the spread of any virus, much less CV-19. Here is just one example of a study that was shelved apparently because it did not provide the wished for result: [The Science of Masking Kids at School Remains Uncertain](#)
- If you are in a store where management insists on you wearing a mask, don't make a scene. Don't become combative or argumentative. Simply leave and find another store that does not have such a policy. Wearing masks is a huge visible sign that we want to comply and be slaves. The only exception to this is when I go to the doctor but then I wear a clear face shield and I smile a lot.
- If you've taken the CV injection(s), stop showing your vaccine passport when asked! It's simple. Don't comply by being polite and resolute. HIPAA laws have *not* been set aside though they'd like us to believe this "pandemic" changes the game completely.
- Use the courts for lawsuits against evil.
- Quit your job for another if you have to do so.

Resisting may also mean a willingness to become involved in *peaceful* protests, allowed by the Constitution of the USA. No illness can effectively set the First Amendment aside. You have the right to complain to government about the way you are being treated and you can do so through legal means of protesting *peacefully*.

The more we fail to peacefully and legally resist, the more we are actually feeding the globalist monster. Resistance is *not* futile. It is actually necessary and to my brothers and sisters who believe that God would have us quietly comply, I cannot say strongly enough that I disagree with you completely.

There are too many pastors and Christian leaders advocating we just go along with the program because that is supposedly the best way to show the love of Jesus. So they want us to get the CV injection(s), mask up, social distance and comply with all other illegal mandates because to not do these things would cause the world to see Christians as "*rabble rousers*."

I'm *not* advocating any form of *violence*. I'm *not* saying that we need to do whatever we can (even if illegal), to gain control over society and push back the evil that is growing. I'm *not* saying any of that.

What I'm saying is that Christians in the USA have inalienable rights guaranteed under the Constitution. However, the powers that be would like us to believe because of a "pandemic" (that *they* caused!), our rights have "legally" been set aside. That is not truth.

Either we legally resist all efforts of the globalists to enslave us or we will truly be enslaved. Is this what you want for yourself and your children or grandchildren? I certainly don't.

This is a different war we are fighting, isn't it? CV-19 will not go away by itself. It needs to be *resisted* into going away. This can only happen as Christians are willing to stand with patriots and do what must be done in order to end the siege that is happening now of our country and this planet.

When the Rapture happens, the resistance to the enemy will be fully set aside. The Holy Spirit will move out of the way and allow evil to have its day. That day is NOT today. The Holy Spirit is still resisting evil through the Church because the Church is still here. That means He is resisting evil through each and every Christian or would endeavor to do so.

So why are we giving up and not resisting *legally* to the *illegal* mandates and the whims of government officials who answer only to the elite? Why are we allowing this?

If each person threw away their mask, refused to wear one, stopped shopping or eating at places that demand masks or vaccine passports, it would not take long for the world to move the problem of CV-19 out of the way. Some restaurant owners and employees [are rejecting orders to demand vax passports](#).

What is your response? What are you willing to do? You probably don't mind when you see other people resisting, do you? "*Oh, that's for them, not me.*" Yet, you benefit from their actions, don't you?

Change needs to happen and it will only happen when/if Christians start realizing that this new "normal" can and should be rejected. We may never get back to what we had before even using all resources available, but if we don't even try, we won't be able to roll things back at all and things will worsen.

I'm tired of being the milksop Christian who yells "*How high?*" when the government says "*Jump!*" There are ways to politely, resolutely, and legally resist the intentions and encroachments of a wayward and tyrannical government. All Christians should be involved in doing that.

Will you do your part?

Pray. Legally resist. Push back.
