Can Science and Philosophy provide answers to greatest questions of life?

Introducing God!

The creation account is about God; God and His glory.

Do you believe in Creation or evolution? God or Science? Faith or Reason?
You can't have both, can you?

What was there, in the beginning?

God, the triune God. (Psalm 90:1-2; Rev 4:8)

What was God doing before creation, before Time?

God as living in a vital, satisfying communion with himself.

He was there, loving, planning, purposing.

John 1:1-3; John 17:5, 24; Ephesians 1:4-5; Titus 1:1-2; 2 Timothy 1:9

God is eternal, self-existent, self-sufficient - He has life in himself.

Psalm 90:1-2 Lord, you have been our dwelling place in all generations.
Before the mountains were brought forth, or ever you had formed the earth
and the world, *from everlasting to everlasting you are God.*

When you lose God, the source of everything, ***you lose everything.***

God is proclaimed, and assumed in Genesis

God isn't discovered at the end of logical, rational argument.

God is to be praised for his creation

Revelations 4:11; Psalm 19:1-4

God creates out of nothing

Hebrews 11:3

Why did God create?

We are without excuse for not knowing him, and worshipping him.
Creation is a bold, sufficient and undeniable witness to the glory of God.
